Intumescent Fire &
Smoke Seals for
Door Assemblies

Complete Fire Door Protection

Exitex offer a wide range of fully tested intumescent strips, glazing seals and auxiliary products for use in timber fire doors.

Quality you can trust

With vast experience and knowledge of the door industry Exitex fully appreciate the crucial role that fire doors play in restricting the passage of fire and smoke through a building. A correctly installed fire door will not only assist in providing escape routes for building occupants but also protect the building and even more importantly, provide safe entrance for the emergency services.

Understanding the importance of specification we have tested our products with UKAS accredited test houses to BSEN 1634-1, BS 476: Part 22 and BS 476: Part 31.1, giving specifiers and customers confidence when using our products.

With technical knowledge and friendly staff, we are able to deal with most requirements.

Flexible Intumescent

Exifire Flexible Intumescent provides fire and smoke seal for fire rated timber, composite and metal door sets. This product has been specially developed to react at lower temperatures protecting the doorset at the most critical stage. Our seals can be rebate or surface mounted and are ideal for factory fitting. Supplied in both strip and coils to minimise wastage. Exifire Flexible Intumescent has been tested to BS 476: Part 22 1987 and EN 1634-1.

Flexible Intumescent - Fire Only

30 Minute Glazing

Exiglaze 30 gaskets have been specifically designed for use in glazed apertures in fire resisting timber doors. They have been fire tested to BS 476: part 22 for 30 minutes with the following glass types: Pyroguard EW 30, Pyrobelite 7, Pyrodur 30-104, Pyrodur 30-105, Pyrodur 60-10, Pyroguard EW MAXI, Pyranova 15-S2.0, Pyrobelite 12, Pyrodur 60-20, Pyroguard EI 30, Pyrostop 30-10, Pyrobel 16

Exiglaze 30 Self Adhesive

A specially formulated compressible gasket that has the ability to accommodate variances between door and glass thicknesses.

Product Ref	Profile Size	Fire Rating	Length	Colours
1.31.0950.0200	2mm x 8mm	30 mins	200m	Black/White
1.31.0955.0150	3mm x 9mm	30 mins	150m	Black/White/Brown
1.31.0960.0100	5mm x 10mm	30 mins	100m	Black

Exiglaze 30 U Channel

A graphite based U Channel gasket to suit 6/7mm glass.

Product Ref	Profile Size	Fire Rating	Length	Colours
1.31.0880.0100.00	12mm x 16mm	30 mins	100m	Black

60 Minute Glazing

Exiglaze 60 and Exiglaze 60 F1 are 3 part glazing solutions for glazed apertures within timber fire doors. Fire Tested to BS 476: Part 22 for 60 minutes.

These systems have been designed to overcome the problems in 60 minute applications using non-insulated glass which results in high temperatures and therefore erosion of the door and bead during fire testing.

Exiglaze 60 F1 incorporates two integral glazing fins to accommodate tolerance variations in both glass and door cores, whilst maintaining sufficient compression of the glass and maintaining a low visual sightline.

Exiglaze 60

Product Ref	Fire Rating	Length	Colours
1.31.0860.2100	60 mins	2.1m	Black/White/Brown
Consisting of 1 number Intumescent Aperture Liner 1mm x 53mm and 2 number 25mm x 4mm moderate expansion Intumescent Glazing Seals.			

Exiglaze 60 F1

Product Ref	Fire Rating	Length	Colours
1.31.0850.2100.00	60 mins	2.1m	Black
Consisting of 1 number Intumescent Aperture Liner 1mm x 53mm and 2 number 25mm x 4mm moderate expansion Intumescent Glazing Seals.			

Exifire Ironmongery Protection

Exifire Hinge and Tubular Latch protection is manufactured from a high performance 1mm flexible Intumescent Sheet. Fire Tested to BS 476: Part 22 for both 30 & 60 minute applications. Exifire Hinge and Tubular Latch protection protects ironmongery installed on fire doors without compromising the integrity of the fire door assembly. Bespoke kits can be manufactured to suit most ironmongery.

Hinge Protection

1.31.0830.0200.00	200mm x 200mm
1.31.0830.0300.00	300mm x 200mm

Door Closers

Product Ref	Description
1.31.0790.0075.00	Intumescent Universal Door Closer Pad 320 x 75mm
1.31.0780.0000.00	Concealed Door Closer Kit, Self Adhesive
1.31.0781.0000.00	Concealed Slide Arm Kit, Self Adhesive

Universal Flush Bolt Kits

To suit both Square & Radius Ends

Product Ref	Description
1.31.0840.0200.00	Universal Flush Bolt Kit 150/200mm
1.31.0841.0450.00	Universal Flush Bolt Kit 300/450mm
1.31.0842.0900.00	Universal Flush Bolt Kit 600/900mm

Door Viewer

Product Ref	Description
1.31.0920.0014.31	Exifire 14mm Door Viewer (35-55mm)

Our fire resistant door viewer has gone through rigorous testing to DHF TS002:2009 which covers Corrosion Resistance, Security (Angle of Vision), Visual Clarity, Resistance to Misting Up, Ability to Clear After Misting, Length Adjustment Range and Marking.

Fire Rated Intumescent Air Transfer Grilles & Faceplates

Exitex offer a comprehensive range of fire rated Air Transfer Grille systems for use in timber fire doorsets for up to 60 minutes fire resistance.

In normal use the Exitex system is designed to allow air to be circulated throughout the building. In the event of a fire the system will close and provide a fire barrier to restrict the passage of hot gasses.

Tested to BS 476: Part 22 for both 30 & 60 minutes

Air Transfer Grilles

Grilles are of robust construction. The frames are constructed from Mild Steel. Modular construction allowing free airflow.

Easily installed and maintenance free.

Product Ref	Description	Dimensions	Free Air Flow
1.31.0401.0000.31	Intumescent Air Transfer Grille	150mm x 150mm x 40mm	153 sq cms
1.31.0402.0000.31	Intumescent Air Transfer Grille	150mm x 300mm x 40mm	307 sq cms
1.31.0403.0000.31	Intumescent Air Transfer Grille	300mm x 300mm x 40mm	614 sq cms
1.31.0404.0000.31	Intumescent Air Transfer Grille	450mm x 450mm x 40mm	1337 sq cms
1.31.0405.0000.31	Intumescent Air Transfer Grille	600mm x 600mm x 40mm	2448 sq cms

Faceplates

Faceplates are constructed from Mild Steel and powdercoated. Supplied complete with fixing screws.

Product Ref	Description	Dimensions	Free Air Flow
1.31.0421.0000.31	Faceplate to suit 150mm x 150mm	197mm x 200mm	150 sq cms

1.31.0425.0000.31	Faceplate to suit 600mm x 600mm	645mm x 645mm	2308 sq cms

Intumescent Aquatex

Exitex have developed an Intumescent Aquatex that is suitable for both 30 and 60 minute fire doors, consisting of a polypropylene outer skin and a polyurethane / graphite mix foam core which retains the excellent memory and temperature range of the current Aquatex. The outer skin is unaffected by paint and stain and has excellent UV stability.

Intumescent Aquatex P9

Product Ref: 1.29.0154

Seals gaps 2.8 - 4.5mm

600m/Box (2 x 300m)

Available in white, brown & black

Intumescent Aquatex A13

Product Ref: 1.29.0700

Seals gaps 5.5 - 12mm

350m/Box (2 x 175m)

Available in white, brown & black

Intumescent Aquatex A10

Product Ref: 1.29.0021

Seals gaps 4.5 - 8mm

500m/Box (2 x 250m)

Available in white, brown & black

Intumescent Aquatex A4

Product Ref: 1.29.0004

Seals gaps 7 - 10.5mm

400m/Box (2 x 200m)

Available in white, brown & black

Exifire Fire Rated Thresholds

Exifire fire rated thresholds, tested to BS EN 1634 for 30 minutes in both directions.

FD30 MXS 15/2

Product Ref: 1.01.0393

Available in mill, gold & black

In sizes 914mm to 2134mm

Blue 60 Professional Gun Cleaner

Product Ref: 1.31.0605.0000.01 (500ml)

This product has been designed to thoroughly clean mechanised foam gun applicators, to ensure long life and consistent application.

Blue 60 Application Gun

Product Ref: 1.31.0606.0000.01

Heavy duty aluminium bodied PU foam gun with stainless steel nozzle and Teflon coating for easy cleaning. Allows gun grade expanding foam to be applied cleanly and precisely.

Fire Rated Intumescent Acoustic Acrylic Sealant

For sealing linear gap seals and small floor / wall penetrations. Achieved 55 DB RW. Fire tested to BS 476: Part 20 & 22 and tested to BSEN ISO 140/3.

Product Ref: 1.18.0500.0310

Description Fire Rated Intumescent Acoustic Acrylic Sealant 310ml

Colours Brown/White

Fire Rating 240 mins

Self Adhesive Surface Mounted Intumescent Strip

- Tested for 30 minutes to BS 476: Part 22
- Retrofit for speedy installation
- No routing of door or frame
- Suitable for gaps 3mm - 5mm, Colour coded brush.
- Alcohol wipe & fire door stickers enclosed.
- Available in white, brown, grey & oak.

Product Ref: 1.31.0932.5200

Stand Ref: 1.30.0036.0000.00

Width - 25mm
Thickness - 1.8mm
Pile Height - 5mm

Stand holds 24 x Self Adhesive
Surface Mounted Intumescent

Important

The Surface Mounted Intumescent Strip should only be fitted to timber door leaves and framing material that has been successfully tested for a period of 30 minutes in accordance with the criteria of BS 476 Part:22 1987.

The fire door keep shut signage should be fitted to comply with BS 5499-5:2002 in accordance with approved document B Volume 2, appendix B clauses 8 & 9.

Exifire

Intumescent Display Stand

The Exifire Intumescent Display Stand & Stock has been specifically developed for builder's merchants and Architectural Ironmongers showrooms.

The Intumescent products contained within the stand are attractively packed for retail sale and the contents of the stand cater for both FD30 and FD60 requirements with full testing on all products.
